*Knowledge and Cooperation  
to address World urgencies*

## WORLD CONGRESS ON OILS & FATS AND ISF LECTURESHIP SERIES

Salón Metropolitano,  
Rosario, Argentina.  
**September 15-19, 2025**

The **World Congress on Oils and Fats and 2025 ISF Lectureship Series** is one of the main global events for the fats and oils industry, which promotes collaboration, the exchange of knowledge among experts, and innovation in applied science, practices and new technological developments for optimizing production responsibly and sustainably.

The growth of scientific knowledge, which has driven the extraordinary technological advances of the digital era, has to be the foundation that guides our action so everybody in the fats and oils industry can contribute to deal with the huge challenges of our time. We need to act as a whole, incorporating the sustainability of our activities and discussing from the perspective of the diversity of interests and worldviews, while avoiding the increasing global polarization.

### Organizers

#### ASAGA

ASAGA (Asociación Argentina de Grasas y Aceites) is the oils and fats association of reference in Latin America. The association is formed by technical people, professionals, researchers, institutions and companies, from different parts of the country and the world.

For more information on ASAGA, please visit: [www.asaga.org.ar](http://www.asaga.org.ar)

#### ISF

Founded in 1954, ISF is a federation of more than 20 national and regional scientific and technical organizations active in the fields of fats, oils and lipid research.

During the **World Congress and ISF Lectureship Series**, one of the most important international awards of the field shall be presented: the **2025 ISF Award**.

For more information about ISF and the ISF Award, please visit: [www.isfat.org](http://www.isfat.org)

The Congress will offer a large amount of sessions and short-courses to bring you up-to-date on the most relevant topics of the sector together with global leaders in each special field.

## SHORT COURSES

Crushing

Refining

Food Applications

Oxidation and Antioxidants

+54 9 341 642-2820

## Come and see the most relevant Vegetable Oil Production Area at global level

Rosario is the epicenter of the largest oil production area at global level, and is located 300 kilometers from the Autonomous City of Buenos Aires, the capital of Argentina. The attendees will have the opportunity to visit oil plants and port terminals in the area, some of which are the most significant ones in the world for oilseeds processing.

The event hall and the associated hotels are located in most strategic and accesible areas of the city to ensure optimal convenience of our attendees when getting aorund and accesing the Congress.

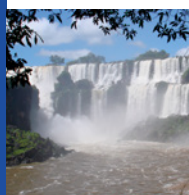

## An invitation to get to know a country full of wonders from north to south

Argentina invites you to discover unparalleled tourism richness.

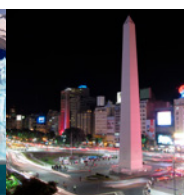

**Featured destinations:**

Iguazú Falls

Glacier Perito Moreno

City of Buenos Aires

Wine Region in Mendoza

Tierra del Fuego National Park

Where will we go?

## ***Our background***

**ASAGA** has successfully organized many activities, including four Latin American congresses and two world congresses.

### **The 2015 Congress in numbers:**

- + than 350 congress attendees
- + than 1000 fair attendees
- + than 200 short-courses attendees
- + than 50 speakers from all over the world
- + than 70 exhibition stands in the commercial fair

In brief, the **World Congress on Oils and Fats and 2025 ISF Lectureship Series** is an event that aims to collectively transform the fats and oils industry through knowledge, and to contribute to a sustainable future and also allow the attendees to enjoy the geographical and cultural richness of Argentina.

***Be a part of the transformation  
we are building together!***
